

# AT601

ALL-TERRAIN TYRE

The Hifly AT601 is a state-of-the-art all-terrain tyre that delivers excellent traction and puncture resistance.

*Special tread compound and wide footprint ensures enhanced tread life, and excellent braking response on both wet and dry roads.*

*Block tread design, combined with multiple sipes provides outstanding off-road traction.*

*Open shoulder grooves ensure efficient water dispersion to prevent aquaplaning.*

*Jointless nylon band improves tread stiffness and uniformity, and delivers high speed stability.*

*Strong carcass structure design provides reliability, durability and puncture resistance.*
